

1375

The first Authorized public
dissection of a human corpse
was 1375, in Montpellier, France.
Authorization was rescinded immediately
afterward for reasons of absconding.
Twenty or 30 yrs later, one dissection
per year was allowed at the University
of Bologna

1375-1475

Full-rigged ship, in combination with nautical charts and celestial navigation, gave Europe mastery of transoceanic navigation
